

SURAT Corporation Best Practices to Manage COVID 19

CLEANLINESS/SANTIZATION OF PUBLIC PLACES

To combat COVID-19 situation, Surat Municipal Corporation has taken various measures pertaining to Swachh Bharat Mission.

- SMC started collecting Solid Waste separately of all home quarantine persons and are being processed as Biomedical Waste
- Started tracking all home quarantine person through SMC COVID-19 Tracking System using Mobile App
- Taking their health details twice in a day through mobile tracker app at 10 AM and 9 PM every day and if any individual describes symptoms, medical team attends such individuals
- Disinfecting all public gathering places like vegetable market, government offices, help centers, clinic and hospitals on regular basis
- Each Door to Door Garbage Collection Vehicle has PAC system through which awareness messages regarding COVID-19 are given
- All sanitation staffs are given masks, sanitizer and other protective Equipment like gloves
- All STP plants are efficiently in operation. We have taken all precautions to avoid spreading of COVID19 as Sewage may contains coronavirus due to its life of 20 to 27 days in fecal of corona patients.
