

C RAMANI

Amma

ANDAMAN AND NICOBAR ISLANDS

PMAY(U) has transformed the lives of **C. Ramani Amma** and her husband **B K Pillai**. Their dream house got constructed after they availed the benefits under the Scheme. Pillai supports a family of two members - his wife and a son. He had been struggling hard in life to make ends meet for his family.

Ramani says that with her husband's little earnings, life was very difficult for them. They had to pay the rent, water and electricity bills along with their limited resource. While she wanted to have a home of her own, the financial conditions stopped her to do so.

When she heard about PMAY(U), Ramani asked Pillai to apply for the same. Subsequently, after documents verification, he was informed about his eligibility and the process flow of house construction.

Pillai says that he had never thought that their dream of owning a pucca house would be fulfilled so soon. "Today, sitting at my newly-built house under PMAY(U), I express gratitude towards the Government of India and Port Blair Municipal council for the fruitful implementation of the Scheme which has provided us not only a sense of security for the future but has also helped us gain social respect in the society," Ramani added.
